

Early Learning Resources

from TRL

Young learners and the library

The first five years of life are critical for brain development and building early literacy skills. The library has a wide variety of resources to support parents, caregivers, and educators during this stage of development. Library cards are free and available to users of all ages.

In the collection

It's not just books!
We've got a wide
selection of materials.

Vox books look like regular picture books but include a speaker to read the story aloud to your child.

Playaways are MP3 players pre-loaded with audiobooks. Just plug in your headphones or speaker to play!

Launchpads are tablets for kids that come loaded with games, videos & stories. No internet necessary!

Math backpacks contain several books and activities designed to make building early math skills fun!

Time Immemorial kits explore Native American cultures and traditions from local tribes. Developed with OSPI.

Youth Connect Boxes contain 20-40 books and check out for up to 24 weeks. Great for schools and daycares.

Online

Access any of our
online resources from
the comfort of your
home!

The Libby app has ebooks for kids. Try read-along mode for emerging readers.

Kanopy is a video streaming service that includes lots of great offerings for kids.

ABC mouse is an award-winning digital education program. Use your library card to access it for free.

Tumblebooks has animated ebooks for kids with read-aloud and read-along options.

Scholastic Teachables offers printable worksheets, lessons, mini-books and more.

In our buildings

There's always something
for kids at the library!
Come in and see what we
have to offer.

Check out our event calendar for kid-friendly programs. Storytime happens every week!

From pirate ships to mushroom houses, many of our branches have innovative playgrounds and all of them have kid-friendly play spaces.

Several of our branches have Expanded Access Hours, allowing you to use the library during unstaffed times.
