

# AtoZ MAPS ONLINE

## QUICK START GUIDE

### Overview

AtoZ Maps Online is the world's most comprehensive collection of royalty-free downloadable maps. Go beyond modern geography by exploring historical maps, glacier maps, congressional district maps, empire and dynasty maps, holy land maps, and more!

### Teaching Tools

#### Lesson Plans

Choose from a variety of free to use lesson plans (grades 4-12) that include the National Geographic Standard (NCGE). From the leftmost sidebar, choose “Education – Teaching Tools” for more resources.

#### Glossaries

Find definitions for specialized words and technical terms by navigating to the leftmost sidebar and choosing “Glossaries.” View glossaries for Climate Change, NASA Earth Observatory, Earthquake & Volcanology Visual Glossaries, Environmental Acronyms, and more!

### Pronunciation Guides

#### Spoken Video Guides

From the leftmost side bar, choose “Spoken Video Guides” for guides including countries and capitals, US states and state capitals, US territories and cities, and major US lakes and rivers.

### Interactive Maps

#### Global Weather Visualization

When opened in full screen, choose between filters Air, Ocean, Space, Wind, Currents, Waves, and more!

#### Latest Earthquakes Map

View data including date, time, location, and magnitude.
